I have known Jacqui Thurlow-Lippisch for over 40 years and endorse her for Martin County Commissioner. She is a widely known and avid supporter of a clean Indian River Lagoon, is opposed to All Aboard Florida, and will vigorously help to protect the Martin County we all love. Her deep knowledge and her impeccable judgment will make her a superb County Commissioner.

Jacqui has been working tirelessly to preserve our area's uniqueness. She supports smart growth and the creation of business opportunities for future generations. Her advocacy efforts over the past seven years to protect the Indian River Lagoon, the backbone of our economy, makes her the best choice for commissioner. Jacqui is our hometown hero!

Martin County is unique, and a great place to live and work. As active members of the community from both a business and an environmental perspective, we can't think of a better leader than Jacqui to serve on our County Commission. She's opposed to All Aboard Florida, unlike the incumbent who originally supported it, and has been a true river advocate. It's time for a change and Jacqui has the integrity, experience and passion to represent residents and business owners like us.
